

Product Data sheet

Part Number: 112010**Name:** Copper Aluminum Flux Cored Wire BD802 (Standard type)

Zn98Al2

Chemical Composition:

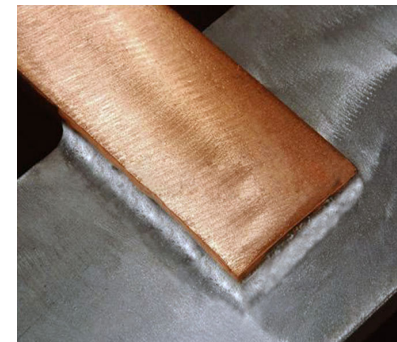

Zinc , Aluminum and other , Flux: CsAlF4

Joining process:

Gas welding

Description and Applications

Braze for joining copper to aluminum and aluminum to aluminum

Melting Range: 380-415°C**Brazing Temperature:** more than 400°C**Wire Diameter:** 1.6mm, 1.8mm, 2.0mm, 2.2mm, 2.4mm**Packing Type:** **Spool wire:** 1.0kg/2.0kg/5kg/spool**Length rods:** 0.5-1.0kg/plastic tube**Product Picture:****Application picture:**
