

106RM-15LM Single Stage Flow Gauge Regulator

Features:

- + Maximum Inlet pressure 3000psi (210 bar).
- + Neoprene diaphragm with internal safety valve protects against over pressurization.
- + 2" high pressure gauge UL approved and low pressure gauge marked UR.
- + Chromed Brass body and Zinc alloy chromed bonnet.
- + Sintered filter inlet and outlet for additional safety and stabilize flowing.
- + Precision flow rate for safety usage.
- + Inlet and outlet thread size are available for International standard.
- + WESTERN® Style.

Specification:

Model	Gas	Flow (lt/min.)	Preset outlet pressure (psi)	Inlet connection	Cylinder pressure (psi/kpa)
106RM-8LM-540	OXYGEN	1-8	50	CGA-540 Nut and Nipple	0-4000psi
106RM-8LM-870	OXYGEN	1-8	50	CG-A870 YOKE	0-4000psi
106RM-15LM-540	OXYGEN	2-15	50	CGA-540 Nut and Nipple	0-4000psi
106RM-LM-870	OXYGEN	2-15	50	CGA-870 YOKE	0-4000psi
