

NEW PRODUCT

592 SERIES GAS REGULATOR

GENTEC® 592 series gas pressure regulator, inlet pressure up to 5500 psig, is designed for industrial gas high pressure testing, non-corrosive high flow gas applications, laser gas system, bulk gas distribution system, etc.

592X-1500P-BS03-G3/8"-RH(M)-BR

Features

- Single stage piston regulator
- High flow output
- Inlet and outlet gas connection: 1/2" FNPT (Standard)
- With two 2-1/2" pressure gauges
- Maximum Inlet Pressure:
 - 3000 psi (450~800 psi delivery pressure)
 - 5500 psi (1500~3000 psi delivery pressure)
- Five port configuration
- External relief valve (Optional)
- Built in mesh filter
- Cv: 0.64
- Weight: 3.2 KG

Flow Rate
