## GAP SERIES GAS ALARM PANELS

GENTEC® **GAP** series gas alarm panel is designed to simultaneously monitor two gas supply systems. When the pressure is lower than set pressure, light-indicated and audible alarm will be triggered to inform operator to check.

Input Port   Output Port   Power Port

Features

- Two-input dry contact signal (electronic contact gauge or pressure switch)
- Aluminum alloy cover with compact design of 88*38*120 mm
- Extra safety with external DC 24V adapter power supply
- Sound and light alarm indication, adjustable alarm sound
- The audible alarm can be muted by the silence button
- When one alarm signal is alarmed and muted, the activation of the other alarm signal will not be hindered
- Built-in PCB board plug-in blocks to facilitate input and output signal lines connection
- Optional strobe light for distance sound and light alarm
- Rated IP51 Enclosure: Protected from limited dust ingress and dripping water

Dimensions

Note: dimensions in mm (in.)
